

Staff Ops Desk Guide

Admin · Command Center · Proposals · Consents

Welcome to the new Hello Gorgeous ops desk. Clear tools, open communication, less hunting across tabs. Questions or stuck? Text Danielle — we would rather hear from you early than fix a mess later.

How to sign in

1. Go to: <https://www.hellogorgeousmedspa.com/login?staff=1&returnTo=/admin>
2. Sign in with your Hello Gorgeous staff email + password
3. You will land in Admin

Bookmark these two front doors:

- Command Center (daily ops, checklist, team tasks) !'
<https://www.hellogorgeousmedspa.com/admin/command-center>
- Consult Desk (screen !' propose !' send !' book) !'
<https://www.hellogorgeousmedspa.com/admin/proposals/consults>

On your phone, the bottom bar starts with Command and Consult.

1) Admin dashboard (quick pulse)

URL: <https://www.hellogorgeousmedspa.com/admin>

Use this for:

- Today's Square schedule (live from Square Appointments)
- RX / refill queue peek
- Quick links into Command, Consult, Clients, POS

Book clients for appointments: use Book in Square (seller calendar) — NOT the public /book site. You must be logged into Square.

2) Command Center — daily ops

URL: <https://www.hellogorgeousmedspa.com/admin/command-center>

Team Hub (everyone)

- Opening / midday / closing checklist — check items off as you do them
- Tasks — create, assign, update status
- Today's consent tracker — see who still needs forms
- Prepare form when a visit needs packets started; Mark signed when the iPad / client finishes
- Staff messages — keep the team in the loop
- Time off — submit requests here (don't only text)

Marketing tab

- Shared campaigns / assets for the whole team
- Laura's Desk is private (Laura + owner only) — staff don't need that code

What we expect every shift

1. Open Command Center when you start
2. Run the checklist for your part of the day
3. Glance at consent tracker before arrivals
4. If something is blocked (no iPad, client no-show, Square glitch) — message the team / Danielle the same day

3) Consult Desk & Proposals — sales flow

This is the path for weight loss, injectables, Morpheus8, packages, etc.

Pipeline (memorize this): Consult !' Proposal !' Send !' Book in Square !' Care

A) Start a consult

URL: <https://www.hellogorgeousmedspa.com/admin/proposals/consults/new>

1. Choose the vertical (e.g. weight loss / injectables / Morpheus8)
2. Enter client name, contact, notes
3. Tap Enter consult room
4. Screen + educate in the room (follow the prompts)

Queue of open consults: <https://www.hellogorgeousmedspa.com/admin/proposals>

B) Build a proposal

URL: <https://www.hellogorgeousmedspa.com/admin/proposals/new>

1. Client + contact details
2. Pick package / services
3. Use Auto-generate options when available
4. Tune Essential / Recommended / VIP
5. Save

All proposals: <https://www.hellogorgeousmedspa.com/admin/proposals> — use Preview, Edit, or Chart as needed.

C) Send the plan to the client

Open the proposal !' Preview, then:

- Copy public link
- Email / SMS
- PDF
- Square payment / financing links when applicable
- Send care guides when treatment is booked

D) Book the visit (staff side)

Book in Square (seller calendar): <https://app.squareup.com/dashboard/appointments/calendar>

Book FOR the client. Do NOT send them only to the public book page unless they prefer self-booking.

What we expect from consults

- Every serious inquiry gets a consult room or a proposal — not just a sticky note
- Plans are sent the same day when possible
- Visits are on Square so the whole team sees the schedule
- If a client is unsure, log the note in the consult/proposal and tell Danielle — open communication beats guessing

4) Consents — get forms signed before treatment

Front-desk reality (use this most days)

From Hub / today's Square appointments:

1. Find the client on today's Square list
2. Tap Start consents
3. That creates/links the Hello Gorgeous visit + consent pack
4. Open or copy the iPad kiosk link
5. Hand the iPad to the client (or text the link when appropriate)

On the iPad:

- Go to <https://www.hellogorgeousmedspa.com/kiosk> OR open the short link you generated
- Client enters phone !' check-in !' Sign consent forms
- Kiosk links expire in about 15 minutes — generate a fresh one if needed

If forms are still outstanding:

- On the appointment: Resend SMS, Sign on iPad, or Get kiosk consent link
- Client self check-in: <https://www.hellogorgeousmedspa.com/checkin>

Admin consents library (templates): <https://www.hellogorgeousmedspa.com/admin/consents>

This manages templates and signed totals. Day-to-day signing starts from Hub / appointment / kiosk, not by editing templates.

What we expect for consents

- No treatment without needed forms signed (or Danielle/Ryan override)
- Check Command Center consent tracker at open and before each arrival
- If a packet fails or a link expires — regenerate and tell the team; don't leave the client stuck in the lobby

Quick daily rhythm

- Start of shift !' Command Center !' checklist + consent tracker
- Inquiry / consult !' Consult Desk !' room !' proposal !' send
- Booking !' Book in Square (staff calendar)
- Arrival !' Start consents / iPad kiosk !' confirm signed
- End of shift !' Finish checklist items · flag anything unfinished to Danielle

Open communication (non-negotiable)

We're building a calmer, clearer Hello Gorgeous. That only works if we talk.

- Ask early if you don't know which tool to use
- Say something if a client is upset, forms are broken, or Square doesn't match the desk
- Write it down in Command Center tasks / consult notes — not only in a group chat that disappears
- No silent struggle — text Danielle the same day

This system is here to make everyone's day easier: fewer lost notes, fewer missing consents, fewer "who was supposed to book that?" moments.

Welcome aboard the new desk.

— Danielle / Hello Gorgeous leadership
