

How we move forward in the med spas you already direct – and how all three of us get paid.

Prepared for Dr. Mukesh Arora, MD • Danielle Alcala Glazier, Owner • Hello Gorgeous Med Spa, Oswego, IL

Today's ask: Medical Director at \$1,500 / month, plus an introduction to spa #1. Not five go-lives. Not equity. Not a peptide catalog on their Instagram.

The first move is a **QR referral door**, not a white-label pharmacy. The spa keeps aesthetics. Hello Gorgeous takes the medical patient. Ryan Kent, FNP-BC reviews every RE GEN chart and prescribes when appropriate. You direct the practice and open the doors. Public marketing is consult-first – spas send people to a medical consult, they do not advertise a compounded-peptide menu.

THREE POCKETS

You

\$1,500 / mo Medical Director of Hello Gorgeous.

- +\$500 / mo once spa #1 is live
- \$25 override on each first paid med from those doors
- \$250 once per kickoff you sit

Spa owner

\$100 on the patient's first paid medication order.

- Zero inventory
- Zero pharmacy license
- Paid only when therapy actually starts

Hello Gorgeous

The refill. We fund month-one CAC.

- \$49 NP consult
- Pharmacy, shipping, Ryan, software
- We keep the chart and month 2+

WHO DOES WHAT

	DOES	DOES NOT
Dr. Arora	Medical director. Network intros. Optional kickoff.	Review every RE GEN chart. Own inventory. Market peptides.
Ryan Kent, FNP-BC	Every RE GEN chart. Prescribes when appropriate.	Run the spa. Own the software.
Danielle	Owner, ops, software, pharmacy, payouts, marketing guardrails.	Prescribe. Touch a chart clinically.
Spa owner	Tent card + allowed script. Send the patient.	Store, sell, or inject compounded medication.

ONE PATIENT – WHO GETS PAID

	MONTH 1 (FIRST PAID MED)	MONTH 2+
Spa owner	\$100 once	\$0 – already paid for the intro
You (override)	\$25 once, if from a door you introduced	\$0 override – retainers still run
Hello Gorgeous	Program fee – pharmacy – \$125 referral – Ryan / ops	Program fee – pharmacy – ops. This is the profit engine.

Illustrative. GLP-1 program fees are currently published from \$195 (semaglutide) / \$235 (tirzepatide) after a \$49 consult. Therapy and fee are quoted after consult. If the patient never converts past consult, spa gets \$0 and you get \$0 override.

WHITEBOARD – FIVE DOORS, CONSERVATIVE

Not a forecast. Five spas you already direct, 8 first-time paying patients each (40 people) in a given month.

POCKET	MATH	THAT MONTH
Five spa owners (together)	$40 \times \$100$	\$4,000
You – retainers	$\$1,500 + \500	\$2,000
You – overrides	$40 \times \$25$	\$1,000
You – total cash		\$3,000 (+ \$250 if you sat a new kickoff)
Hello Gorgeous	40 consults + 40 first months – \$5,000 paid out – pharmacy – Ryan	Thin on month 1. Healthy if they refill.

You still did not review those 40 charts. Ryan did. You directed the practice and opened the doors. Hello Gorgeous bought the first month so we own the relationship.

WHAT THE SPA MAY / MAY NOT

May

- Hand out our QR / tent card
- Say: “We can connect you with a medical consult through Hello Gorgeous.”
- Talk in classes: weight-loss programs, wellness consults, licensed NP reviews every chart
- Keep facials, lashes, and everything they already do
- Earn \$100 on each first paid medication order

May not

- Store, sell, or inject compounded vials
- Put a named peptide catalog on their site or Instagram
- Say “same as Ozempic / Wegovy / Mounjaro”
- Use their own consents for this program
- Keep the medical patient – the chart is Hello Gorgeous

GO-LIVE FOR SPA #1

STEP	WHAT HAPPENS
Intro	You introduce the owner. Danielle sends the spa one-pager, tent-card PDF, and allowed script.
Kickoff	Optional 20 minutes with you in the room – \$250 once.
Desk	QR up. Two-sentence script. Owner signs: no inventory, no named compounded-peptide ads.
Convert	Patient pays consult, Ryan charts, medication ships home. Spa \$100. Your \$25. Network retainer starts that month.

NOT TODAY / LATER

We are asking today

- Medical Director at \$1,500 / month
- Introduction to spa #1
- QR doors: our consents, \$100 to the spa, \$25 to you
- Written: Ryan prescribes; you oversee; escalations anytime

We are not asking

- Equity or a check from you
- You reading every peptide chart
- Five white-label go-lives or an EHR project
- Any spa refrigerating or injecting our medication
- \$3,000-\$8,000 / mo MD retainers from the old deck

If a location later wants therapy under *their* roof, that is a different contract – their NP, your protocols, our software – after the QR model is proven.

Hello Gorgeous Med Spa

Danielle Alcala Glazier, Owner
Ryan Kent, FNP-BC, Prescribing NP
Dr. Mukesh Arora, MD – proposed Medical Director

Discussion materials only – not a binding offer. Fees are proposed commercial terms. Clinical care is individualized. Compounded medications are not FDA-approved and are not the same as brand-name GLP-1 products. Counsel, Illinois licensing, malpractice coverage, and collaborative-practice language still have to close. No diagnosis, dosing, or outcome claims.
