

Wednesday 11:00 – your talking points

Do not hand this to the Village. This is Danielle's script.

When: Wednesday, August 26, 2026 at 11:00 a.m.

Who: Kevin Leighty, Economic Development Director (or whoever he brings).

Ask: Full \$40,000 Economic Incentive Award for the storefront Washington Street sees. Not payroll. Not InMode. Not furniture.

Hand them the leave-behind. Keep this packet. Glance, then look up.

SAY THIS FIRST

I have already put a half million dollars of medical equipment into 74 West Washington, hired a doctor, put a family nurse practitioner in this building seven days a week, plumbed a real med room, and hired people to work downtown. I am asking the Village for \$40,000 to finish the face of that investment – the sign and the storefront our neighbors actually see.

Math they will remember: \$40,000 is about 8 cents on every dollar of the \$506,000 already spent on InMode, furniture, and paint. You are not asking them to buy the practice. You are asking them to help the block look like the practice.

HOW TO SIT (20 MINUTES)

TIME	WHAT YOU DO
0-2 min	Thank them. "I've been here since 2017. This is personal."
2-8 min	Walk what you already paid. Do not rush InMode. Pause on Ryan + sports physicals.
8-12 min	Jobs: Dr. Arora \$1,500/month, front desk manager, Laura and the Chamber.
12-16 min	The ask: \$40k for signage / doors / exterior only. Say out loud what you are not asking for.
16-20 min	Close: Business Concierge, eligibility list, "tell me what bids you need." Then stop talking.

If they come to the spa, swap minutes 2-12 for the tour. Talk while you walk. Sit for the ask at the end.

SCRIPT

Open. Thank you for making time on a Wednesday. I know you have a lot of downtown requests. I did not come to ask the Village to invent a business. Hello Gorgeous has been on Washington Street since 2017. I came to show you what I have already put into this building, and to ask for help finishing the part the street sees.

1. Dr. Arora – \$1,500 a month. I hired Dr. Mukesh Arora, MD, to provide physician oversight. His rate is \$1,500 a month. That is \$18,000 a year of medical authority on this block, and it comes out of my pocket every month. I am not asking the grant to pay Dr. Arora. I am telling you so you know this is a medical practice with a real doctor.

2. Ryan Kent – family NP, seven days, sports physicals. Ryan Kent is a family nurse practitioner. He is on site seven days a week. He takes care of our clients here – including sports physicals – so a parent in Oswego does not have to leave town. That is a quality-of-life amenity in the TIF district. I pay for that coverage. You get the access downtown.

3. The med room. We installed plumbing so we can have a sink. Labor, cabinet, water – I paid for it. Interior medical buildout is mine. I am not putting that on the grant.

4. Paint and furniture. Over \$1,000 in paint and supplies, about \$5,000 in furniture. Again – mine.

5. InMode ~\$500,000. Destination technology on Washington Street. The Village should not buy my lasers. The Village should help the outside catch up to what is already inside.

6. Front desk manager. A downtown job and a professional door for people walking in off the street.

7. Laura Witt – Chamber and events. Marketing manager so we are part of this community – not a locked door with a pretty logo.

The turn. Your program is for downtown TIF businesses that improve quality and character, and that show amenities and jobs. I have already delivered the medicine, the jobs, and the interior. What is still unfinished is the storefront: professional signage, doors and windows, exterior paint and masonry, lighting on the facade. I am asking for the full \$40,000 for that work only. For every dollar you put on the face of this building, I have already put more than twelve dollars of InMode equipment behind the glass.

Close. I would rather invest in this street than give up on it. Please consider us for the full \$40,000, enroll us in Business Concierge, and tell me the next piece of paper you need. Then stop talking. Let them answer.

IF THEY PUSH BACK

"This sounds like interior / payroll." Correct. That is why I listed it as already paid. The application is exterior signage and storefront only.

"Do you have bids?" Not in this folder yet. Tell me the format you need and I will get three bids for signage and facade.

"Other businesses got \$40k plus a loan." Today the ask is the \$40,000 storefront award. I will listen if a revolving loan is on the table later.

"Is medical even downtown retail?" It is a highly desired amenity. Families should not have to leave town for a physical or for this care.

Do not talk about the competitor next door. Stay loyal to Oswego.

TOUR ORDER (IF THEY ARE IN THE BUILDING)

1. Front door / front desk manager – "this is a new downtown job."
2. Furniture – "about \$5,000, I paid it."
3. Med room sink – "plumbing, cabinet, water – I paid it."
4. InMode rooms – "about \$500,000. This is why the outside has to catch up."
5. Sit down – Dr. Arora \$1,500/month, Ryan 7 days, Laura and the Chamber, then the \$40k ask.

BRING IN THE FOLDER

- 3 printed copies of the Wednesday brief
- Photos: med-room sink, furniture, InMode rooms, front desk
- Any invoices you already have (even if not grant-eligible)
- Dr. Arora \$1,500/month note if you are comfortable showing it
- Blank pad – write down the application link and who to email

Text tonight: Hi Kevin – looking forward to Wednesday at 11:00. I'll bring a one-page brief on what we've already invested at 74 W. Washington and the \$40,000 storefront request. Thank you for the time. · kleichty@oswegoil.org
